## ***INDEPENDENT AUDITOR'S REPORT***

To the Members of the Board of Selectmen and Town Manager  
Town of Newport  
Newport, New Hampshire

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, business-type activities, discretely presented component unit, major fund, and aggregate remaining fund information of the Town of Newport as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Basis for Adverse Opinion on Governmental Activities***

As discussed in Note 1-B to the financial statements, management has not recorded the capital assets and related accumulated depreciation in the governmental activities, and accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that capital assets, including infrastructure, be capitalized and depreciated, which would increase the assets, net position, and expenses of the governmental activities. The amount by which this departure would affect the assets, net position, and expenses of the governmental activities is not reasonably determinable.

As discussed in Note 1-B to the financial statements, management has not recorded the long-term costs of retirement health care costs and obligations for other postemployment benefits in the governmental activities. Accounting principles generally accepted in the United States of America require that those costs be recorded, which would increase the liabilities, decrease the net position and increase the expenses of the governmental activities. The amount by which this departure would affect the liabilities, net position, and expenses on the governmental activities is not readily determinable.

***Town of Newport  
Independent Auditor's Report***

***Adverse Opinion***

In our opinion, because of the significance of the matters described in the “Basis for Adverse Opinion on Governmental Activities” paragraphs, the financial statements referred to above do not present fairly the financial position of the government-wide financial statements of the Town of Newport, as of June 30, 2017, or the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Unmodified Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, discretely presented component unit, major fund, and aggregate remaining fund information of the Town of Newport as of June 30, 2017, and the respective changes in financial position, and were applicable, cash flows and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

**Required Supplementary Information** - Accounting principles generally accepted in the United States of America require that the Management’s Discussion and Analysis, Schedule of the Town’s Proportionate Share of Net Pension Liability, and Schedule of Town Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers them to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Information** - Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Newport’s basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Management's Discussion and Analysis Calendar Year Ended June 30, 2017

Our discussion and analysis of the Town of Newport's financial performance provides an overview of the Town's financial activities for the year ended June 30, 2017. Please read it in conjunction with the Town's financial statements, which begin on page 12.

### FINANCIAL HIGHLIGHTS

For the year ended June 30, 2017:

- The Town's total net position was \$5,753,733, a decrease from the prior year of \$577,945 or 9.1%, which consisted of (\$1,360,996) for Governmental Activities and \$7,114,729 from Business-Type Activities.
- The Town does not record capital assets for the Governmental Activities. Capital assets, net of depreciation of the Business-Type Activities were \$8,230,019, a decrease from the prior year of \$291,930, or 3.4%. Depreciation expense for 2017 was \$338,498.
- The total long-term obligations for the Town were \$10,577,325, an increase of \$1,523,060 from the prior year, or 16.8%. The addition to the Town's Net Pension Liability was \$1,736,294.
- The unassigned fund balance of the General Fund was \$405,933, an increase of the prior year's balance of \$350,784, or 636.1%.

### OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of two types of statements:

#### *Government-Wide Financial Statements*

The Statement of Net Position, page 12 and the Statement of Activities, page 13, are designed to report the Town's financial activities in a manner similar to private-sector companies. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, thereby reporting all current year revenue and expenses regardless of when cash is paid or received. These two statements report the Town's net position and changes in them. Over time, increases or decreases in net position may serve as one useful indicator of whether the financial health of the Town is improving or deteriorating.

## Management's Discussion and Analysis Calendar Year Ended June 30, 2017

The Statement of Net Position and the Statement of Activities distinguish the Town's activities as follows:

- **Governmental Activities** - Most of the Town's basic services are reported in this section. These include general government, police, ambulance, fire, public works, sanitation, health and welfare, culture and recreation, airport, and capital outlay. These activities are supported primarily by property taxes, motor vehicle fees, intergovernmental revenues, charges for service, and other miscellaneous revenues.
- **Business-Type Activities** – The Town charges a user fee to customers to cover all, or most, of the cost of certain services provided. The Town's water and sewer operations are reported here.
- **Component Unit** – The Richards Free Library and Library Arts Center are an IRS Section 501(c)3 non-profit corporation reported as a component unit of the Town of Newport. The Statement of Net Position of this entity is as of December 31, 2016 and the Statement of Activities is for the period January 1, 2016 to December 31, 2016.

### *Fund Financial Statements*

The fund financial statements begin on page 14, and provide information on the Town's most significant funds; not the Town as a whole. A fund is a grouping of accounts, each of which is considered a separate accounting entity. The following fund types are utilized by the Town.

- **Governmental Funds**: This fund type is used to account for the Town's basic services such as general government, police, fire, public works, culture and recreation, health and welfare, aviation, and capital outlay. These activities are supported primarily by property taxes, motor vehicle permits, and intergovernmental revenues. Unlike the government-wide financial statements, these funds are reported using an accounting method called modified accrual accounting. This method of accounting measures cash and all other financial assets that can readily be converted to cash.

The governmental fund financial statements provide a short-term view of the Town's general government operations. It is useful to compare this information to similar information on the government-wide financial statements to gain a better understanding of the long-term impact of the Town's near term financial decisions.

- **Proprietary Funds**: These funds are commonly referred to as Enterprise Funds. Proprietary Funds are presented in the same format as the business-type activities in the government-wide financial statements, only in more detail by breaking out the Water and Sewer Funds separately.
- **Fiduciary Funds**: Fiduciary funds account for assets held by the Town as a trustee or agent for individual, groups, private organizations, or other units of government. These

funds are not reflected in the government-wide financial statements, because these assets are unavailable to finance the Town's operation.

### *Notes to the Financial Statements*

The notes to the Financial Statements provide additional information that is essential to an overall comprehension of the data provided in the government-wide and fund financial statements.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS:**

The following is a summary of the government-wide financial data for the fiscal year ended June 30, 2017:

## Management's Discussion and Analysis Calendar Year Ended June 30, 2017

### Governmental Activities

- Revenues: Revenues are classified as either Program or General.

Program revenues are targeted to directly offset expenses. For 2017, program revenues, charges for services and operating grants and contributions account for 13.3% of total revenues. Program revenues for 2016 accounted for 15.5% of total revenues.

Revenues not specifically targeted for an activity are known as general revenues. Property taxes make up 63.2% of the Town's general revenues and 54.7% of total revenues. Licenses and permits, mainly auto registrations, account for 15.9% of general revenues and 13.8% of total revenues. Detail of the total revenues is as follows:

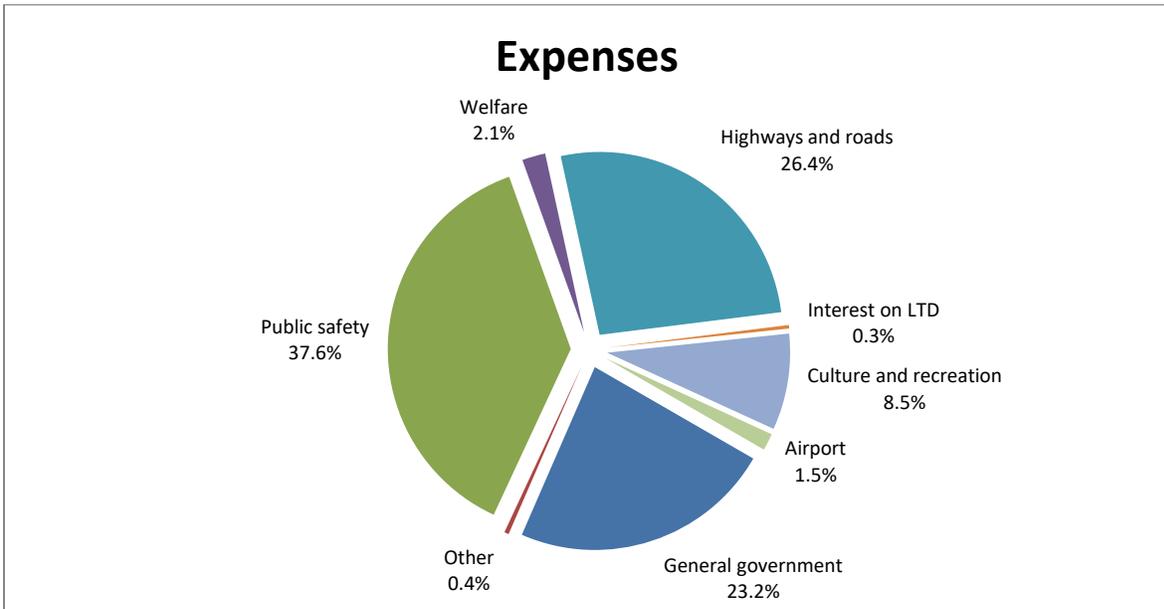

- Expenses: Expenses are classified by major governmental function or program and are offset by related program income. No depreciation has been recorded for 2016 or 2017.

The largest expenses were for general government, which accounts for 23.2% of total expenses; public safety, 37.6%; and highways and roads, 26.5%, and culture and recreation, 8.5%.

# TOWN OF NEWPORT, NH

## Management's Discussion and Analysis Calendar Year Ended June 30, 2017

### Business-Type Activities

#### ➤ Revenues:

Program revenues for the Business-Type Activities, accounting for 97.3% of Total revenues, are Charges for Service for the Water and Sewer utilities. For 2016, Charges for Service accounted for 99.4% of Total revenues.

#### ➤ Expenses:

Expenses of the Business-Type Activities consist of operating expenses, interest on debt service and depreciation expense for the Water and Sewer utilities. For 2017 and 2016, the breakdown of the expenses is 31.6% and 39.2%, Water department and 68.4% and 60.8%, Sewer department.

### **FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

- Governmental Funds: The fund financial statements are provided on pages 14-17. The focus of the governmental funds is to provide information on near-term inflows, outflows, and balance of resources. This information is most useful in assessing financing requirements. For example, unassigned fund balance may serve as a useful

measure of a government's net resources available at year end. The Town's General Fund is its largest Governmental Fund.

During the fiscal year, the Town recognized \$7,703,463 in revenues and other financing sources in the General Fund, which is an increase of .01% from the prior year. The Town incurred \$7,525,411 in General Fund expenditures and other financing uses during the year, which represents an increase of 7.3% from the prior year.

The Town finished the fiscal year with General Fund fund balance in the amount of \$2,046,327, an increase from the prior year of 9.5%. The current year net change in fund balance is \$178,052. Of the total fund balance, \$255,056 is Nonspendable, \$148,602 Committed, and \$1,236,736 Assigned, leaving an Unassigned balance \$405,933.

- Proprietary Funds: Proprietary funds provide the same type of information found in the business-type activities reported in the government wide financial statements, only in more detail.

The Proprietary funds reported an overall net change in net position of (\$847,354) or 10.6% of the prior year balance. Depreciation expense for 2017 was \$338,498.

### BUDGETARY HIGHLIGHTS

The Town budget as approved at Town Meeting for the year ending June 30, 2017 was \$13,108,956. Of that total, \$3,592,920 was special warrant articles for various projects and special items and the balance of \$9,516,036 represented the Town's operating budget.

Of the total budget, the General Fund accounted for \$8,631,129, \$2,120,559 for the Water Fund, \$2,133,713 for the Sewer Fund, \$130,243 for the Airport Fund, and \$93,312 for the Police Special Detail Fund. In the General Fund, actual expenditures including encumbered amounts were \$215,471 less than the budgeted amount as of June 30, 2017.

### CAPITAL ASSETS

The Town does not record the investment in capital assets for the Governmental Activities. The investment in Capital Assets, net of depreciation, for the Business-Type Activities is \$8,230,019. Details of Capital Assets and the changes in Capital Assets are found in the Notes to the Financial Statements. A summary of the Capital Assets and changes thereof follows:

*For the Fiscal Year Ended June 30, 2017*

Net change in fund balances of governmental funds (Exhibit C-3)		\$ 288,287
Amounts reported for governmental activities in the Statement of Activities are different because:		
Transfers in and out between governmental funds are eliminated on the Statement of Activities.		
Transfers in	\$ (12,729)	
Transfers out	<u>12,729</u>	-
Revenue in the Statement of Activities that does not provide current financial resources is not reported as revenue in the governmental funds.		
Change in deferred inflows for 60-day revenue recognition	\$ (176,331)

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Town of Newport, New Hampshire (the Town), have been prepared in conformity with accounting principles generally accepted in the United States of America for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other authoritative sources.

The more significant of the Town's accounting policies are described below.

***1-A Reporting Entity***

The Town of Newport is a municipal corporation governed by an elected 5-member Board of Selectmen and Town Manager. In evaluating how to define the Town for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth by the GASB. The Town has no component units to include in its reporting entity.

Component units are legally separate organizations for which the Town is financially accountable. The Town is financially accountable for an organization if the Town appoints a voting majority of the organizations governing board, and (1) the Town is able to significantly influence the programs or services performed or provided by the organizations; or (2) the Town is legally entitled to or can otherwise access the organizations resources; (3) the Town is legally obligated or has otherwise assumed the responsibility to finance the deficits or provide financial support to, the organization; or (4) the Town is obligated of the debt of the organization. Based on the foregoing criteria, the Richards Free Library is included as a discretely presented component unit in the Town's financial reporting entity. However, the financial statements presented for the Richards Free Library are as of and for the year ended December 31, 2016.

***1-B Government-wide and Fund Financial Statements***

***Government-wide Financial Statements*** - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the primary government. Generally, the effect of interfund activity has been eliminated from these statements. Primary government activities are distinguished between governmental and business-type activities. Governmental activities normally are supported through taxes and intergovernmental revenues. Business-type activities rely, to a significant extent, on fees and charges for support.

The *Statement of Net Position* presents the financial position of the Town at year-end. This statement includes all of the Town's non-fiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position, with the exception of the capital assets and related accumulated depreciation in the governmental activities, which have been omitted because they have not been inventoried at historical cost. In addition, long term costs of retirement, health care, and obligations for other postemployment benefits in the governmental activities have also been omitted because the liability and expense have not been determined.

The *Statement of Activities* demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational requirements of a particular function or segment. Taxes and other items not meeting the definition of program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenue rather than program revenue. As in the Statement of Net Position mentioned above, the Town has not recorded depreciation expense nor other postemployment benefit expense in the governmental activities.

***Fund Financial Statements*** - Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

In the governmental fund financial statements, expenditures are reported by character: current, debt service or capital outlay. Current expenditures are subclassified by function and are for items such as salaries, grants, supplies, and services. Debt service includes both interest and principal outlays related to bonds. Capital outlay includes expenditures for equipment, real property, or infrastructure.

**TOWN OF NEWPORT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**JUNE 30, 2017**

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are subclassified by object (e.g. administration and depreciation). Operating revenues and expenses generally result from providing services and producing and delivering goods. All other revenues and expenses are generally reported as nonoperating.

**Other Financing Sources (Uses)** – these additions to and reductions from resources in governmental fund financial statements normally result from transfers from/to other funds and financing provided by bond proceeds. Transfers are reported when incurred as “transfers in” by the receiving fund and as “transfers out” by the disbursing fund.

***1-C Measurement Focus, Basis of Accounting, and Financial Statement Presentation***

***Measurement Focus and Basis of Accounting*** - The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, except for agency funds which do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the *modified accrual basis* of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes, licenses and permits, intergovernmental revenue, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

***Financial Statement Presentation*** - A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to report financial position and the results of operations, to demonstrate legal compliance, and to aid financial management by segregating transactions related to certain government functions or activities.

The Town reports the following major governmental fund:

**General Fund** – is the Town’s primary operating fund. The general fund accounts for all financial resources except those required to be accounted for in another fund. The primary revenue sources include property taxes, State grants and motor vehicle permit fees. The primary expenditures are for general government, public safety, highways and streets, sanitation, culture and recreation, debt service and capital outlay. Under GASB Statement No. 54 guidance, the expendable trust funds and the CDBG Revolving Loan fund are consolidated in the general fund.

All the governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

The Town reports the following major proprietary funds:

**Sewer Fund** – accounts for the activities related to the operation of the sewer treatment plant, pumping station, and sewer lines. Under GASB Statement No. 54 guidance, the expendable trust funds are consolidated in the sewer fund.

**Water Fund** – accounts for the activities related to the operation of the water treatment plant, wells, and water system. Under GASB Statement No. 54 guidance, the expendable trust funds are consolidated in the water fund.

Additionally, the Town reports the following fund types:

**Special Revenue Funds** - are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

**Capital Projects Funds** - are used to account for the financial resources and activities relating to specific construction projects.

**TOWN OF NEWPORT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**JUNE 30, 2017**

**Permanent Fund** - is used to record activity of legal trusts for which the interest on the corpus provides funds for the Town's cemetery operations.

**Fiduciary Funds** – The Town also reports the following fiduciary funds:

**Private Purpose Trust Fund** – are used to report trust arrangements, other than pension and investment trusts, under which principal and income benefit individuals, private organizations, or other governments.

**Agency Fund** – are custodial in nature and do not involve the measurement of operating results. An agency fund is used to account for assets held on behalf of outside parties, including other governments.

***1-D Cash and Cash Equivalents***

The Town considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Deposits with financial institutions consist primarily of demand deposits and savings accounts. A cash pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and cash equivalents."

The treasurer is required to deposit such moneys in solvent banks in state or the Public Deposit Investment Pool pursuant to New Hampshire RSA 383:22. Funds may be deposited in banks outside of the state if such banks pledge and deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits, United States government or government agency obligations or obligations to the State of New Hampshire in value at least equal to the amount of the deposit in each case.

***1-E Restricted Assets***

Certain proceeds of the water and sewer proprietary funds are classified as restricted assets on the balance sheet because their use is limited to expenses relating to new hook-ups for water and sewer users. In addition, in the Sewer Department, the cash associated with retainage payable for future contractor expenses has been reported as restricted since it will be used to satisfy contractual provisions.

***1-F Statement of Cash Flows***

For purposes of the Statement of Cash Flows, the Town considers all highly liquid investments (including restricted assets) with a maturity when purchased of three months or less and all local government investment pools to be cash equivalents.

***1-G Investments***

State statutes place certain limitations on the nature of deposits and investments available as follows:

New Hampshire law authorizes the Town to invest in the following type of obligations:

- Obligations of the United States government,
- The public deposit investment pool established pursuant to RSA 383:22,
- Savings bank deposits,
- Certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the State treasurer.

Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

**TOWN OF NEWPORT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**JUNE 30, 2017**

**Fair Value Measurements of Investments** – In accordance with GASB Statement No. 72 *Fair Value Measurement and Application*, except for investments measured using net asset value (NAV) as a practical expedient to estimate fair value, the Town categorizes the fair value measurements of its investments within the fair value hierarchy established by US GAAP. The fair value hierarchy categorizes the inputs to valuation techniques used for fair value measurement into three levels as follows:

**Level 1** – Inputs that reflect quoted prices (unadjusted) in active markets for identical assets and liabilities that the Town has the ability to access at the measurement date. Directly held marketable equity securities would be examples of Level 1 investments.

**Level 2** – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active. Because they most often are priced on the basis of transactions involving similar but not identical securities or do not trade with sufficient frequency, certain directly held fixed income securities are categorized in Level 2. Holdings in U.S. government obligations and corporate bonds would be examples of Level 2 investments.

**Level 3** – Unobservable inputs based on the best information available, using assumptions in determining the fair value of investments and derivative financial instruments would be an example of level 3 investments.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In certain instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, is the level in the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. Investments are reported at fair value. If an investment is held directly by the Town and an active market with quoted prices exists, such as for domestic equity securities, the market price of an identical security is used to report fair value and is classified in Level 1. Corporate fixed income securities and certain governmental securities utilize pricing that may involve estimation using similar securities or trade dates and are classified in Level 2. Fair values for shares in registered mutual funds and exchange-traded funds are based on published share prices and classified in Level 1.

**Investments in Certain External Investment Pools** – In accordance with GASB Statement No. 79, Town held investments with the New Hampshire Public Deposit Investment Pool (NHPDIP) are categorized as Level 2. The NHPDIP measures all of its investments at amortized cost. There are no redemption restrictions and shares may be redeemed by the Town in accordance with the NHPDIP's Information Statement.

### ***1-H Receivables***

Receivables recorded in the financial statements represent amounts due to the Town at June 30. They are aggregated into a single accounts receivable (net of allowance for uncollectibles) line for certain funds and aggregated columns. They consist primarily of taxes, billing for charges, and other user fees.

### ***1-I Inventory***

The inventories of the Town are valued at cost using the first-in/first-out (FIFO) method. The inventories of the Town's nonmajor airport fund consist of fuel held for subsequent sale. The cost of such inventories is recorded as expenses when sold rather than when purchased.

### ***1-J Prepaid Items***

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements, and expenses as the items are used. Under the full accrual basis of accounting used for the governmental-wide financial statements, prepayments of debt are recognized as they occurred (see Note 8).

### ***1-K Capital Assets***

Capital assets are defined by the Town as assets with an estimated life in excess of one year, and include property, plant, and equipment, infrastructure assets that are reported in business-type activities and enterprise funds. Capital assets in the governmental activities have not been capitalized as the Town has not determined the historical costs of the initial reporting of these assets.

**TOWN OF NEWPORT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**JUNE 30, 2017**

Capital assets of the enterprise fund are capitalized in the fund. Net interest cost is capitalized on enterprise fund capital assets during the construction period.

Additions, improvements, and other capital outlay that significantly extend the useful life of an asset are capitalized. The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend lives are not capitalized.

In the business-type activities of the government-wide financial statements and in the enterprise fund financial statements, the cost of property sold or retired, together with the related accumulated depreciation, is removed and any resulting gain or loss is included in income.

Capital assets of the Town are depreciated or amortized using the straight-line method over the following estimated useful lives:

	<u>Years</u>
<b>Capital Asset Classes:</b>	
Buildings and building improvements	20 - 40
Machinery and equipment	5 - 40
Other improvements	40

***1-L Interfund Activities***

Interfund activities are reported as follows:

***Interfund Receivables and Payables*** – Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business activities are reported in the government-wide financial statements as “internal balances.” Interfund receivables and payables between funds are eliminated in the Statement of Net Position.

***Interfund Transfers*** – Interfund transfers represent flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making the transfers and other financing sources in the funds receiving the transfers. In proprietary funds, transfers are reported after nonoperating revenues and expenses. In the government-wide financial statements, all interfund transfers between individual governmental funds have been eliminated.

***1-M Property Taxes***

Property tax billings occur semi-annually and are based on the assessed inventory values as of April 1 of each year. Warrants for the year were issued on May 23, 2016 and November 10, 2016, and due on July 7, 2016 and December 19, 2016. Interest accrues at a rate of 12% on bills outstanding after the due date and 18% on tax liens outstanding.

In connection with the setting of the tax rate, Town officials with the approval of the Department of Revenue Administration, establish and raise through taxation an amount for tax abatement and refunds, known as overlay. This amount is reported as a reduction in tax revenue and is adjusted by management for any reserve for uncollectable at year end. The property taxes collected by the Town include taxes levied for the State of New Hampshire, Newport School District, and Sullivan County, which are remitted to these entities as required by law.

The Town net assessed valuation as of April 1, 2016 utilized in the setting of the tax rate was as follows:

For the New Hampshire education tax	\$412,135,776
For all other taxes	\$429,384,776

**TOWN OF NEWPORT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**JUNE 30, 2017**

The tax rates and amounts assessed for the year ended June 30, 2017 were as follows:

	Per \$1,000 of Assessed Valuation	Property Taxes Assessed
Municipal portion	\$11.26	\$ 4,833,246
School portion:		
State of New Hampshire	\$2.20	908,537
Local	\$12.39	5,320,452
County portion	\$2.88	1,236,042
Total	\$28.73	\$12,298,277

***1-N Accounts Payable***

Accounts payable represent the gross amount of expenditures or expenses incurred as a result of normal operations, but for which no actual payment has yet been issued to vendors/providers as of June 30, 2017.

***1-O Deferred Outflows/Inflows of Resources***

*Deferred outflows of resources*, a separate financial statement element, represents a consumption of net position or fund balance that applies to a future period(s) and thus will not be recognized as an outflow of resources (expenses) until then.

*Deferred inflows of resources*, a separate financial statement element, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

***1-P Long-term Obligations***

In the government-wide and proprietary financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund Statement of fund Net Position.

***1-Q Compensated Absences***

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that is probable benefits will result in termination payments. The liability is based on the Town’s experience of making termination payments.

***1-R Defined Benefit Pension Plan***

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* and GASB Statement No. 82 *Pension Issues – an amendment of GASB Statement No. 67, No. 68 and No.73* requires participating employers to recognize their proportionate share of collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense, and schedules have been prepared to provide employers with their calculated proportionate share of these amounts. The collective amounts have been allocated based on employer contributions during the respective fiscal years. Contributions from employers are recognized when legally due, based on statutory requirements.

The schedules are prepared by New Hampshire Retirement System, and are audited by the plan’s independent auditors.

**TOWN OF NEWPORT, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**

***1-S Net Position/Fund Balances***

***Government-wide Statements*** – Equity is classified as net position and displayed in three components:

- a) *Net investment in capital assets* – Consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Because the Town has not reported all of its capital assets in the governmental activities, this amount is a negative balance.
- b) *Restricted net position* – Consists of net position with constraints placed on use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c) *Unrestricted net position* – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

***Fund Balance Classifications*** – GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, provides more clearly defined fund balance categories to make sure the nature and extent of the constraints placed on a government’s fund balances is more transparent. The following classifications describe the relative strength of the spending constraints:

***Nonspendable*** – This classification includes amounts that cannot be spent because they are either (a) not in spendable form (such as prepaid items, inventory or tax deeded property subject to resale); or (b) are legally or contractually required to be maintained intact.

***Restricted*** – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

***Committed*** – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the legislative body (Town Meeting). These amounts cannot be used for any other purpose unless the legislative body removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

***Assigned*** – This classification includes amounts that are constrained by the Town’s intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Selectmen or Town Manager through the budgetary process.

***Unassigned*** – This classification includes the amounts that are available for any purpose. Positive amounts are reported only in the general fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by an offsetting of assigned fund balance amounts.

When multiple net position/fund balance classifications are available for use, it is the government’s policy to utilize the most restricted balances first, then the next most restricted balance as needed. When components of unrestricted fund balance are used, committed fund balance is depleted first followed by assigned fund balance. Unassigned fund balance is applied last.

***1-T Use of Estimates***

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the period reported. These estimates include assessing the collectability of accounts receivable, and the useful lives of capital assets, among others. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from estimates.

**NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**2-A Budgetary Information**

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town’s operations. At its annual meeting, the Town adopts a budget for the current year for the general, proprietary, and nonmajor airport funds. Except as reconciled below, the budget was adopted on a basis consistent with US generally accepted accounting principles.

Management may transfer appropriations between operating categories as deemed necessary, but expenditures may not legally exceed budgeted appropriations in total. All annual appropriations lapse at year-end unless encumbered.

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures, and are therefore, reported as part of the assigned fund balance at year-end, and are carried forward to supplement appropriations of the subsequent year.

State statutes require balanced budgets, but provide for the use of beginning unassigned fund balance to achieve that end. For the fiscal year 2017, none of the beginning general fund unassigned fund balance was applied for this purpose.

**2-B Budgetary Reconciliation to GAAP Basis**

The Town employs certain accounting principles for budgetary reporting purposes that differ from a GAAP basis. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budgetary Basis presents the actual results to provide a comparison with the budget. The major difference between the budgetary basis and GAAP basis is as follows:

Encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities, but represent budgetary accounting controls. Governmental fund budgets are maintained on the modified accrual basis of accounting except that budgetary basis expenditures include purchase orders and commitments (encumbrances) for goods or services not received at year-end. Encumbrances are recorded to reserve a portion of fund balance in the governmental fund types for commitments for which no liability exists.

The following reconciles the general fund budgetary basis to the GAAP basis:

Revenues and other financing sources:

**NOTE 5 – INVESTMENTS**

Note 1-G describes statutory requirements covering the investment of the Town funds. The Town holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the Town’s mission, the Town determines that the disclosures related to these investments only need to be disaggregated by major type. The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

At June 30, 2017, the Town and discretely presented component unit had the following investments:

**Interest Rate Risk** – This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk** – The Town has no formal policy on managing credit risk; however, State law limits investments as explained in Note 1-G. The Town’s investment pool had the following credit risk structure at June 30, 2017:

Investment Type	Credit Rating*	Fair Value	Percent of Grand Total
Corporate bonds	A	\$ 57,982	15.05%
Corporate bonds	Baa	56,719	14.72%

\*Per Moody's

**Custodial Credit Risk** – This is the risk that in the event of the failure of the counterparty (e.g. broker/dealer) to honor a transaction, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have custodial credit risk policies for investments.

**Concentration of Credit Risk** – The Town places no limit on the amount it may invest in any one issuer. More than 5% of the Town’s investments are in Lake Sunapee Bank. These investments are 19% of the Town’s total investments.

Less: allowance for estimated uncollectible taxes	<u>(139,183) *</u>	<u>-</u>
Net taxes receivable	<u>\$2,046,473</u>	<u>\$2,185,656</u>

\*The allowance for uncollectible property taxes is not recognized under the modified accrual basis of accounting (Exhibit C-1 and C-3) due to the 60-day rule as explained in Note 1-C. However, the allowance is recognized under the full accrual basis of accounting (Exhibits A and B).

**NOTE 7 – OTHER RECEIVABLES**

Receivables at June 30, 2017, consisted of accounts (billings for police details, water, sewer, ambulance, and other user charges) and intergovernmental amounts arising from grants. Receivables are recorded on the Town's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and collectability.

Receivables as of June 30, 2017 for the Town's governmental and proprietary funds including applicable allowances for uncollectible accounts are as follows:

**NOTE 10 – INTERFUND BALANCES AND TRANSFERS**

**Interfund Balances** - The composition of interfund balances as of June 30, 2017 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
<b>Governmental funds:</b>		
General	Water	\$ 126,834
	Sewer	577,572
	Nonmajor	257,310

		<u>970,937</u>
<b>Business-type activities:</b>		
Water	Sewer	<u>73,504</u>
		<u><u>\$ 1,044,441</u></u>

The outstanding balances among funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

**Interfund Transfers** - The composition of interfund transfers for the year ended June 30, 2017 is as follows:

	<u>Transfers In:</u>		
	<u>General Fund</u>	<u>Nonmajor Fund</u>	<u>Total</u>
Transfers out:			
General fund	\$ -	\$ 893	\$ 893
Nonmajor fund	<u>11,836</u>	<u>-</u>	<u>11,836</u>
Total	<u><u>\$ 11,836</u></u>	<u><u>\$ 893</u></u>	<u><u>\$ 12,729</u></u>

During the year, transfers are used to (1) move revenues from the fund with collection authority to the fund responsible for expenditure and (2) move general fund resources to provide an annual subsidy.

**NOTE 11 – INTERGOVERNMENTAL PAYABLES**

Amounts due to other governments of \$4,139,087 at June 30, 2017 consist of the following:

**NOTE 15 – DEFINED BENEFIT PENSION PLAN**

**Plan Description:** The New Hampshire Retirement System (NHRS or the System) is a public employee retirement system that administers one cost-sharing multiple-employer defined benefit pension plan (Pension Plan), a component unit of the State of New Hampshire, as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans* – an amendment of GASB Statement No. 25. The Pension Plan was established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. The Pension Plan is a contributory, defined benefit plan providing service, disability, death and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters and permanent police

officers with in the State are eligible and required to participate in the Pension Plan. The System issues a publicly available financial report that may be obtained by writing the New Hampshire Retirement System, 54 Regional Drive, Concord, NH 03301.

**Benefits Provided:** The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II. All assets are held in a single trust and available to pay retirement benefits to all members.

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC) multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service. Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the member attains 52.5 years of age by  $\frac{1}{4}$  of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances, subject to meeting various eligibility requirements. Benefits are based on AFC or earnable compensation and/or service.

**Contributions:** The System is financed by contributions from both the employees and the Town. Member contribution rates are established and may be amended by the State legislature while employer contribution rates are set by the System trustees based on an actuarial valuation. All employees are required to contribute 7% of earnable compensation. The contribution rates were 11.55% for police officers and 11.80% for firefighters. For fiscal year 2017, the Town contributed 26.38% for police, 29.16% for fire fighters, and 11.17% for all other employees. The contribution requirements for the fiscal years 2015, 2016, and 2017 were \$495,388, \$533,292, and \$525,515, respectively, which were paid in full in each year.

**Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions:** At June 30, 2017 the Town reported a total liability of \$7,087,755, of which \$6,294,820 reported in the governmental activities and \$792,935 reported in the business-type activities for their proportionate shares of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating towns and school districts, actuarially determined. At June 30, 2016, the Town's proportion was .13328872% which was a decrease of .00179709% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the Town recognized pension expense of \$735,551. At June 30, 2017, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The \$492,812 reported as deferred outflows of resources related to pensions results from the Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Governmental Activities	Business-type Activities	Total
2017	\$ 172,884	\$ 25,363	\$ 198,247
2018	172,884	25,363	198,247

Totals	<u>\$ 994,507</u>	<u>\$ 145,897</u>	<u>\$ 1,140,404</u>

**Actuarial Assumptions:** The collective total pension liability was determined by a roll forward of the actuarial valuation as of June 30, 2015, using the following actuarial assumptions which, accordingly apply to 2016 measurements:

Inflation:	2.5%
Salary increases:	5.6% average, including inflation
Investment rate of return:	7.25% net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 employee generational mortality tables for males and females, adjusted for mortality improvements using Scale MP-2015, based on last experience study.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

**Long-term Rates of Return:** The long-term expected rate of return on pension plan investment was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. Following is a table presenting target allocations and long-term rates of return for 2017:

Asset Class	Target Allocation	Weighted average long-term expected real rate of return <u>2016</u>

**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**JUNE 30, 2017**

**Discount Rate:** The discount rate used to measure the collective total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the Pension Plan’s actuarial funding policy as required by RSA 100-A:16. Based on those assumptions, the Pension Plan’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on Pension Plan investment was applied to all periods of projected benefit payments to determine the collective total pension liability.

**Sensitivity of the Town’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:** The following table presents the Town’s proportionate share of the net pension liability calculated using the discount rate of 7.25% as well as what the Town’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate:

Actuarial Valuation Date	1% Decrease 6.25%	Current Single Rate Assumption 7.25%	1% Increase 8.25%
June 30, 2016	\$ 9,107,282	\$ 7,087,755	\$ 5,412,877

**Pension Plan Fiduciary Net Position:** Detailed information about the pension plan’s fiduciary net position is available in the separately issued New Hampshire Retirement System Cost-Sharing Multiple Employer Defined Benefit Pension Plan financial report.

**NOTE 16 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

The Town provides postemployment benefit options for health care to eligible retirees, terminated employees, and their dependents in accordance with the provisions of various employment contracts. The benefit levels, employee contributions, and employer contributions are governed by the Town’s contractual agreements. The town does not directly pay for the retirees but through the implicit costs associated with the rates paid for current employees that are charged to the general, sewer, and water funds.

The Governmental Accounting Standards Board (GASB) issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. GASB Statement No. 45, which was effective for the Town on January 1, 2009, requires that the long-term cost of retirement health care and obligations for other postemployment benefits (OPEB) be determined on an actuarial basis and reported on the financial statements. The Town has not implemented GASB Statement No. 45 at June 30, 2017 or contracted with an actuarial firm to assist in evaluating the impact of this standard on the Town. The amounts that should be recorded as the annual required contribution/OPEB cost and the net OPEB obligation are unknown.

**NOTE 21 – RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. During fiscal year 2017, the Town was a member of the New Hampshire Public Risk Management Exchange (Primex<sup>3</sup>) Workers' Compensation and Property/Liability Programs. This entity is considered a public entity risk pools, currently operating as common risk management and insurance programs for member Towns and cities.

The New Hampshire Public Risk Management Exchange (Primex<sup>3</sup>) Workers' Compensation and Property/Liability Programs are pooled risk management programs under RSAs 5-B and 281-A. Coverage was provided from January 1, 2017 to June 30, 2017 by Primex<sup>3</sup>, which retained \$1,000,000 of each workers' compensation loss, \$500,000 of each liability loss, and \$200,000 of each property loss. The Board has decided to self-insure the aggregate exposure and has allocated funds based on actuarial analysis for that purpose. The estimated net contribution from the Town of Newport billed and paid for the year ended June 30, 2017 was \$85,795 for workers' compensation and \$124,396 for property/liability.

**NOTE 22 – RELATED PARTY TRANSACTIONS**

Financial reporting standards require disclosure of significant related-party transactions, including the nature of the relationship, a description of the transactions, dollar amounts of the transaction, and amounts due to or due from the related party at the financial statement date. The Economic Corporation of Newport, Inc. (ECON) is a separate 501(c)3 non-profit entity formed under the direction of the 1991 Town of Newport town meeting for the development of economic projects and relationships to benefit the Town. The Town Manger is an automatic member of the ECON Board, but the Board is self-appointing for all other members. While not a component unit, ECON does qualify as a related party.

The Town and ECON have many interactions through the course of the year. One ongoing activity is the Town manages the Ash Landfill owned by ECON as a contracted service. For the year ended June 30, 2017 the contract was in the amount of \$35,000 plus any additional costs, and at June 30, 2017 the Town has reported a receivable in the amount of \$66,333 from ECON.

**NOTE 23 – CONTINGENT LIABILITIES**

There are various legal claims and suits pending against the Town which arose in the normal course of the governments activities. In the opinion of management, the ultimate disposition of these various claims and suits will not have a material effect on the financial position of the Town.

The Town participates in various federal grant programs, the principal of which are subject to program compliance audits pursuant to the Single Audit Act as amended. Accordingly, the government's compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the government anticipates such amounts, if any, will be immaterial.

**NOTE 24 – SUBSEQUENT EVENTS**

Subsequent events are events or transactions that occur after the balance sheet date, but before the financial statements are issued. Recognized subsequent events are events or transactions that provided additional evidence about conditions that existed at the balance sheet date, including the estimates inherent in the process of preparing the financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the balance sheet date, but arose after the date. Management has evaluated subsequent events through August 28, 2018, the date the June 30, 2017 financial statements were available to be issued, and the following occurred that required recognition or disclosure:

In January 2015, a general contractor filed and served the Town with a lawsuit seeking unpaid sums still due under a \$2.3 million wastewater treatment facility construction contract, as well as damages. The Town filed counterclaims against the contractor, as well as third party cross-claims against the engineering firm and subcontractor that designed the facility, alleging breaches of contract and negligence and seeking damages. The facility cannot be operating and the Town is unable to meet the discharge limits required by the EPA in the Town's NH DES permit, which was the purpose of constructing the facility. The parties are engaged in discovery and a trial in 2018 is currently scheduled.

In August 2015, the Town signed an Administrative Order by Consent with the NH Department of Environmental Services provided for a new facilities plan to be developed by the Town by December 31, 2017. The Town has entered into a contract with a different engineering firm to complete this plan.
